## Camera Technology Workshop

Teledyne Photometrics will be hosting a camera technology workshop alongside the Light Microscopy Facility at the Max Planck Institute of Experimental Medicine. The workshop consists of practical sessions, where users can learn how to quantifiably compare scientific camera technologies and optimise their use for specific applications. There will also be an educational seminar over lunch (snacks provided!).

### THE TOPICS COVERED IN THE SEMINAR INCLUDE:

- Camera technology timeline
- Sensor architecture and design
- Understanding a camera datasheet
- Camera sensitivity
- Resolution

---

**Friday, 14<sup>th</sup> February 2020**

**Practical sessions: 09:30 – 17:00**

**Seminar: 12:15 – 13:00**

(Library Seminar Room, Max Planck Institute of Experimental Medicine)

---

Limited spaces available. Please book practical sessions in advance by contacting Mišo Mitkovski ([mitkovski@em.mpg.de](mailto:mitkovski@em.mpg.de)) or Mathias Pasche-Drews ([Mathias.Pasche@Teledyne.com](mailto:Mathias.Pasche@Teledyne.com)).
